

**Thursday 20 May 2010 at the
Department of Primary Industries Hamilton Centre**

EverGraze: makes \$ and sense

EverGraze is developing and testing new farming systems in different environments across the high rainfall zone of southern Australia. The target is to increase profits from sheep and cattle enterprises by up to 50% and at the same time improve water management, perennial use, biodiversity and soil health.

The EverGraze Project is holding its 5th Annual Field Day on 20 May 2010 at DPI Hamilton. The day will commence with a series of presentations in the morning and then a tour of the research site on the DPI Farm in the afternoon.

Field Day Program:

9.30 am	Registration
10.00 am—12.30 pm	Seminar Session <ul style="list-style-type: none">◆ Livestock & Pasture Production Results◆ Gross Margin Analysis & Return on Investment from Pastures◆ Shelter for Improved Lamb Survival
12.30 pm - 1.30 pm	Lunch
1.30 pm - 3.30 pm	Tour of the EverGraze Research Site

The current phase of the EverGraze Research project will conclude on 30 June 2010. The Field Day will be the last opportunity to view the site under the current EverGraze Pasture Systems.

A free BBQ lunch will be provided on the day. To assist with catering please register your attendance with Sandra Greenaway:

Phone (03) 5573 0971 or e-mail sandra.greenaway@dpi.vic.gov.au by Monday 17 May 2010.

The DPI Hamilton Centre is located 10km south of Hamilton on Mt Napier Road

EverGraze is a Future Farm Industries CRC,
MLA & AWI research & delivery partnership
