

Feed Budgeting and Tactical Management

One or two day workshop

Develop skills for producers or service providers:

- ✓ Making day to day pasture management decisions
- ✓ Setting trigger points for planning ahead for seasonal feed excess and shortages
- ✓ Monitoring productivity of paddocks across the farm and calculating fertiliser requirements
- ✓ Setting up rotational grazing plans which cater for differences in productivity of different paddocks
- ✓ Calculating and costing livestock rations
- ✓ Using the EverGraze Feed Budget and Rotation Planner

Suitable for producers who have existing pasture and livestock management skills.

COURSE FEES AND AVAILABILITY OF DELIVERERS VARIES BETWEEN REGIONS.
