

Whole Farm Grazing Strategies

This seven day course combines information from research, tools, benchmarks and local case studies in the *EverGraze* regional packages to help farmers to assess their own businesses and identify the biggest leavers they can pull to address profit, environment, risk and lifestyle priorities. A second year follows through on the process to support change implementation.

- ✓ **Pasture and landclass** strategies to address profit, environment, lifestyle and risk
- ✓ **Soils and fertility management**
- ✓ **Livestock systems and management**
- ✓ **Tactical options** for seasonal and market variability
- ✓ **Grazing systems explained**
- ✓ **Practical changes** - assessing costs and benefits
- ✓ **Implementing changes on farm**

Farm walks are conducted to discuss the challenges and see the impact of management changes first hand.

FURTHER DETAILS AVAILABLE ON APPLICATION. COURSE FEES AND AVAILABILITY OF DELIVERERS VARIES BETWEEN REGIONS.
